Last week we hosted the Honorable Martin Foley as our “Principal for a Day.” This was an opportunity for the Minister to gain a better insight into the role of a Principal and, more importantly, to build a close bond with the school community.

The day began with a tour of the new Bay Street Campus and it was not long before Minister Foley was working alongside our year 9 students in our sustainable cafe. Each day a group of year 9 students prepare, cook and sell their produce to their fellow students. The catchy title of the cafe, “The Whole Nine Yards” plays on the fact that the whole enterprise is run by our year 9 students with a strong emphasis on raising awareness of the importance of cooking in a fun and sustainable manner.

Minister Foley donned an apron and was soon proudly producing a vegetarian lasagne. This was a great way to informally meet with our students whilst gaining an insight into how the Campus, with its distinctive Da Vinci curriculum, works.

“Is what you are doing going to change a person or a community’s life for the better?”

- Hon. Martin Foley, MP
Later in the morning, he joined our leadership team in discussing our strategic intent for next year and beyond. Discussions ranged from the most immediate tasks of preparing the College for the 2017 school year to a more broad-ranging discussion about future needs for growth and how we can best prepare for it. It is fair to say that we had a creative and very informative discussion.

The highlight of the day was a forum that Minister Foley took part in with our student leadership group. Students were invited to ask the Minister questions about leadership and what it signifies to him. This was a fascinating session and I really enjoyed the interplay between our future leaders and the person who has to demonstrate his leadership in a very public way every day.

He urged them to consider if what you are doing is going to change a person or a community’s life for the better. He advised them to ‘surround yourselves with good people and good advice.

To be clear about your values and to ensure that they are reflected in the decisions you take’.

Our students were impressed by the Minister’s passion and commitment to education and his willingness to share his personal story with the group. A meeting like this makes the concept of leadership real for them and they left the forum with lots of new ideas about leadership and the special responsibility it represents.

Proudly an IB school
As many of you are aware we are offering the International Baccalaureate Diploma next year. This qualification is an excellent fit with our College values and our desire to create global citizens.
If you are interested in being part of the initial intake in 2017 please contact Anne Stout on 8695 9000.

-Steve Cook
Foundation Principal

Parents/Carers:
If your child is going to be, or has unexpectedly been, absent from school for any reason, please email “attendance@albertparkcollege.vic.edu.au” to advise us.
Your assistance is greatly appreciated.
APC Conference

On Sunday 14th and Monday 15th of August, all teaching and support staff attended the Albert Park College conference in the beautiful coastal town of Inverloch. The annual conference supplements the ongoing professional learning undertaken each week at the college, and delivers the latest education research on best learning and teaching strategies.

Renowned international speaker Mark Treadwell highlighted the latest brain research and provocatively linked this neuroscience to learning and teaching in our classrooms. Martin Heppell wowed and engaged the staff with his presentation on the Resilience Project, an initiative that uses positive emotions to help build resilience and increase learning in young people.

Greg Sperling and Silvana Sena helped staff explore how emotional intelligence impacts on performance, and situated learning at Albert Park College in a broader context.
Our own select staff delivered targeted presentations on strategies that we know are relevant to our students and were highly praised for their relevance, creativity and impact. This learning event for staff was incredibly successful in setting the scene for ‘high challenge learning’ in a supportive environment, where our students are at the centre of everything we do.

---

**OUR ANNUAL ART SHOW WILL BE HELD AT OUR NEW BAY STREET CAMPUS**

**Gala Opening Night**  
Friday 14th October 2016  
7-11 pm  
Join us for a night of food, wine, music, live and silent auction and fantastic artworks by professional and student artists.  
The exhibition continues over Oct 15 – 16 with free entry from 10am – 4pm.

**Purchase tickets**  
To purchase tickets for the Gala Opening night click here or go to:  
https://www.trybooking.com/201059
Bay St Opening Night

On Thursday 4th August some 300 guests, as partners and donors of the new 40 Bay St campus, gathered together to celebrate and explore the new campus.

Guests were lead through the campus by Year 9 student leaders as hospitality students served refreshments. The feeling of excitement and satisfaction was palpable as the formal proceedings of the evening began.

The College Principal Steven Cook, 6 degrees architects and the School Council President Mark Sheppard spoke about the many and varied aspects of the project and thanked the multiple people involved in bringing the project to fruition. The evening concluded with the Minister of Innovation Martin Foley congratulating the school community on the project and toasting APC.

Albert Park College wishes to personally thank our partners and donors for their ongoing support. Without your assistance our Da Vinci dream would not have been possible!
Life at Bay St

Year 9 students and staff have settled into 40 Bay Street with aplomb, enjoying the stunning new facilities, and engaging with the architectural spaces and innovating activities.

A local environmental scientist, Clare Grandison, has partnered with Bay St to provide information, advice and mentoring on all things scientific. Innovate Tech, an organisation dedicated to coding and robotics and tinkering, visited the campus to have students explore the essential 21st century skill of coding through virtual robots. Sea Shepherd, the international conservation organisation, was represented by two speakers who passionately talked about environmental activism and human influences on fragile and integral areas in our environment.

Engineers Without Borders will visit soon to lead students through building water filtration units, highlighting the disparity of resources between nations, and the impact this has on economic, environmental and moral decisions in government.

Ben Ashkanasy pitching his inquiry question and field of research to his peers, making use of the stadium seating in the Drill Hall.
The Whole 9 Yards Cafe has been creating a range of wholesome, made-from-scratch locally-sourced food, all prepared, served and managed by an interchanging crew of students.

The Cafe has started an Instagram page and part of students’ assessment is to upload a post of things they have completed. It is a public page for parents and friends to follow our journey: Have a look! @thewhole9yardsapc

This adult learning environment and range of real-world learning provides authentic experiences for students where learning is dynamic, interconnected, and from the source. The interactions of the Year 9 students within our learning community is a demonstration of their development into truly global citizens with a keen sense of curiosity, a critical eye, and creative perspectives.
Crowdfunding Campaign

This month, APC Families is launching our latest fundraising venture—a crowdfunding campaign to raise funds for our wonderful new Year 9 campus at Bay Street, Port Melbourne. The new campus not only provides a fit-for-purpose home for our leading edge Da Vinci Project curriculum, but has also freed up space at our main campus for the other year levels and provides a magnificent venue for our performing arts activities.

The crowdfunding campaign is built around an animation conceived by renowned comedy writer, advertising creative and APC parent Rob Hibbert, and illustrated by our very own Year 9 media students.

Please share the video below across all your social media networks and help us raise money to continue to develop APC! Click below to watch the video.

An enormous amount of appreciation goes to Rob Hibbert and his team at WHYBIN TBWA for their tireless dedication to this campaign.
Science Week

Albert Park College was happy to celebrate National Science Week with this year’s theme being Drones, Droids and Robots! Students were able to participate in a range of activities from watching battlebots and science displays, to creating their own robots. We had a range of guest speakers and demonstrations and ended the week with a competitive trivia match.

We used this week to also establish a science club and seek interest for a drone building after school program. If students are interested they should ensure they sign up for the programs offered through their email, science portal page or by contacting Danielle Inwood.
Wigglebots Activity
Have you ever seen a wiggle-bot? On Wednesday the 17th of August, eleven students spent time making wiggling robots in the physics room at lunch time. Each robot consisted of a cup, a AA battery, three pens (‘legs’) and a purposely asymmetrically weighted motor. When the motors were powered, the vibrations made caused the robots to skitter across a large sheet of paper, creating exciting swirling patterns with the markers. The project was simple and fun!

Neural Interfacing Presentation
Ammar Adoud attended Albert Park College as a part of science week in order to discuss his research in the field of biomedical engineering. He is working on a project which explores neural interfacing in relation to prosthetics development. He compared the two types of neural interfacing, internal and external, and their benefits and drawbacks. We learnt that external interfacing, while safer, was not especially effective when conveying signals. The internal method was significantly more invasive and came with higher risks, however it produced far superior results. A new solution was recently discovered which combines the best of both internal and external interfacing, and this is what his team is currently focusing on. The reason this research is so important is because it has enormous implications in regards to the development of prosthetics, and the improvement of life for those living with certain disabilities. It allows them to regain control of their lives and bodies, allowing them to live independently. A woman who suffered from cerebral palsy, which rendered her immobile, was able to utilise a robotic arm wired directly to her brain to pick up and drink from a cup entirely of her own free will due to the collective actions of those involved in this project. Overall, this was a rewarding experience as we gained an abundance of knowledge we did not previously have.

-Phoebe, Kate, Ciara Year 10
CERES Excursion

On 18th of August, 2016 the APC Environmental Science class headed out to the Centre of Education and Research of Environmental Strategies community, also known as CERES. We learnt about ways of minimising environmental impact by reducing water and electricity consumption as well as reducing our waste outputs. The staff at CERES turned a stark landfill site into Brunswick’s most eco-friendly site that can actually give back to the community by returning electricity to the power grid and increasing the water quality of the Merri Creek.

We also visited the sustainable Council House 2 building in the city to observe sustainable commercial building design.

Trivia

Science week ended with a great round of Science trivia. Hosted by quiz masters Boone and Moles it was the highlight of the week. Over 60 students from all years pitted them themselves against 20 questions that drew on not only their science knowledge but also general knowledge. It was a tight tussle but “Goonies Boys” edged ahead of the pack to claim victory.

Big Science Competition 2016

During Term 2, 55 APC students participated in this year’s Big Science Competition, with 48,766 participants across Australia. This competition represented a great opportunity for some of our talented students to gain recognition in this area.

The following students achieved outstanding results and were awarded the following certificates. Well done to all who participated!

**High Distinction**
- Alexis Kanakaridis
- Leigh Greville
- Milo Thompson
- Oliver Kalicin
- Paddy Freemantle
- Rodney Fleming
- Lucas Fern
- Sol Hopkins

**Distinction**
- Connor Pan
- Conor Stayton
- Harrison Overall
- Hunter Seabrook
- Luca Foster
- Daniel O’Donnell
- Thomas Foley
- Anya Scoble-Hansen
Drones!

As part of science week, an incursion was held in the gymnasium to showcase the work of Melbourne drone enthusiasts. Students observed a demonstration of a quadcopter style drone, then discussed the applications of the technology, including industrial, agricultural, photography and racing. The modular style of the drones allows different devices to be attached and removed to tailor the machine to suit a variety of tasks. This was demonstrated with the use of a gamble which allowed the drone’s camera to point in the direct that the operators head was facing, tracking head movements and allowing for easy use of the drone as a spotting and observation tool.

Students are invited to express interest in forming a drone making Inspire club. An expression of interest form has been distributed to all students via email.

Physics Breakfast

Six Year 11 physics students attended a Girls in Physics Breakfast meeting in Hawthorn with guest speaker Dr Catalina Curceanu on Thursday the 25th of August. At the venue, up to six physics students from each school attending met with great anticipation, ready for breakfast, and to hear about the amazing journey of Dr Catalina Curceanu.

Dr Catalina Curceanu is the 2016 Women in Physics lecturer at Australian Institute of Physics (AIP). She offered her time to present her story to girls studying VCE physics in Year 10, 11 and 12. She has spent the last few weeks touring Australia and inspiring girls to commence on a journey such as hers. She talked about her life as a physicist and her major achievements as well as her current projects. She also discussed about the difficulties in being a woman in a male dominated field.

During the event, we were also provided with the chance to talk to different physicists on our tables and ask questions of the many physicists around the room. We were able to ask about their life and personal stories. It was a very exciting experience and we are extremely grateful for this opportunity.

- Anne Miller, Anya Scoble-Hansen, Camryn Edwards, Claire Matler, Genesis Mata Celma and Stella Li
APC held their annual Athletics Carnival on Tuesday the 23rd of August at Lakeside Stadium.

It was a fantastic day and Melbourne turned it on with some beautiful weather. Flannery took out the event yet again, with Freeman in 2nd and Winton in third place. Well done to everyone who attended the carnival and participated in events to represent their house.

Good luck to the following students, who are competing at the next round:

- Oskar Shrowder
- Mia Dorge
- Reece Longstaff
- Mack Burdett
- Harrison Raynor
- Mitch Waring
- Tess Burger
- Angus Johnson
- Will Hurley
- Oscar Pearce
- Liam Capon
- Paddy Twigg
- Tom Foley
- Jayde Cosford
- Paddy Fremantle
The weather did not fail to represent the enthusiasm in anticipation of this day. Everyone from seven to twelve attended in full force, dressed head to toe in their house colours ready to cheer on their friends and respective house mates. For the Year 12's this is our final house competition and last chance to compete head to head. I can speak on behalf of the year twelve cohort, in saying it has been an absolute honour to represent the school. The achievements we’ve been able to accomplish over our journey have been beyond belief. We are all so grateful to be amongst such a dominating group of people and hope the years to come further cement the competitive culture of Albert Park College. The developed camaraderie and the standards set by the class of 2016 will hopefully encourage that same spirit for those younger year levels to strive and create a legacy of their own.

Congratulations to all those who represented the school at districts and good luck to those who have qualified for regions.

Daniel Marks (Sports Captain) - Year 12

A big thank you to Macson Dimovski, James Bartlett and Alexis Chabrol for their dedication to filming on the day!
VIC Interschool Snowsport Championships

What incredible conditions we had for the Victorian Interschools Snowsports Competition at Mt Buller in late August. A group of 11 students competed against other independent and government schools across Victoria with some outstanding results.

Highlights:
- Buzz Mckenna - 3rd Moguls
- Max Ashkanasy, Campbell Darby, Hamish Paine - 4th Team Moguls
- Ben Ashkanasy - 4th Moguls
- Llywellyn McDonald - 6th Snowboard GS
- Llywellyn McDonald - 7th Slopestyle Board

Those above qualified to compete in the Australian Nationals Championships at Perisher, outstanding results for such a small team! Congratulations to Buzz Mckenna & Llywellyn McDonald who are off to Perisher to compete.
In August, 32 students from Years 9, 10 and 11 and four teachers travelled to Mount Hotham for five days of skiing and snowboarding. As we drove up the mountain it was clear that snow conditions would be outstanding. Upon arrival at Eumarella Lodge, students were greeted with cosy accommodation with an open fire, pool and cinema rooms, friendly staff and stunning views. Each morning students participated in lessons with expert instructors who skilled skiers and snowboarders up to improve their technique and confidence to take on more challenging runs.
Students and teachers spent a lot of time on Heavenly Valley, Blue Ribbon and out at the Orchard creating amazing memories for discussion by the fire back at the lodge. Each night students helped prepare a hot meal to fuel the excitement of the following day. Mr Patrick’s parallel turns, Mr Whitaker’s efforts at breaking his speed record, Ms Stewart’s daredevil moves and Mr Box’s surprising agility were a source of inspiration and amusement for students who pushed themselves to increasingly skillful runs down the steep slopes. After five days of sun and blizzard, everyone agreed that it was an incredible experience.

Our students received wonderful feedback from the lodge and ski patrol staff and represented Albert Park College in a positive and inspiring manner that will make them welcome in years to come. As the skis and snowboards were packed up, tired legs were stretched and bags were packed our thoughts all pointed to the ski season of 2017.
Sport

Senior Girls Basketball

Congratulations to the following students for representing APC in State Basketball

Mia Ganci          Grace Purchase
Annie Gaze        Jada Kooymann-Hardge
Sonya Roklinia    Allanah Pollit-Pinto

It was a tough day for the girls but they fought hard to make it this far and they should be very proud of themselves.

Fantasy Football Club Celebrates inaugural winner Johnny Wilson

The final round of the home and away AFL season marked the end of season for Albert Park’s fantasy football league club. The club formed in term one, creating a league comprising of 14 student and teacher managed teams. The teams were drafted in early March with a marathon drafting meeting that ran into the night as the coaches agonised over their picks. Through a combination of astute drafting, a keen eye on the free agent pool and frankly a bit of luck eight teams made it into a finals series that was ultimately won by Year 10 student Johnny Wilson who beat out year long rival Joel Paxton. With a successful season under its belt the league looks forward to season 2017 with many coaches already plotting their way to glory.

Port Colts Female Football Launch for 2017

6.30pm Wednesday, October 12th
From Auskick, U10s, U12s, U14s, U16s, Youth Girls, Womens Development Team & Premier Division

Lead Create Inspire
Student leadership - Youth in chambers

On Wednesday 7th of September the Junior SRC attended the Youth in Chamber event at the St Kilda Town Hall.

The Junior SRC, which is made up of our Year 7 and 8 Ambassadors, delivered a fantastic presentation to Mayor Bernadine Voss and the Councillors of the City of Port Phillip.

Our presentation reflected on a project the Junior SRC has been working on throughout the year, where they have designed several resources on cyber safety. The Junior SRC hopes to have these resources embedded in the Tutorial curriculum in 2017.

We had the opportunity to ask questions of the Mayor and Councillors, opening up a terrific dialogue around the best ways of tackling this important issue.

Well done to the Junior SRC on an outstanding presentation!

-Josh Patrick
Boys ‘Go Wild’ for:

Albert Park College is proud to work again with Arts Centre Melbourne towards their upcoming dance production of “The Lord of the Flies”. First created in the UK by acclaimed choreographer and director Sir Matthew Bourne, and running for the first time in Australia through Arts Centre Melbourne, this is an exciting and rare opportunity for boys to explore their potential interest in dance and movement and to interact with professional dance artists.

APC students have the opportunity to be involved in up to three dance workshops hosted at APC from October to December this year. Workshops are open to boys from years 7-12, and no experience in dance or theatre is required.

Following the workshops, students can audition to become part of the professional cast (from the UK and Australia), creating a company of approximately 30 young men and boys for the production of Lord of the Flies, to be presented at the State Theatre in April 2017.

For who:
Young men / boys, year 7-12 inclusive, of all ability levels. Beginners most welcome.

Duration:
1.5 - 2 hours. It is anticipated that the workshops will run during periods 4&5 of the school day, dates yet to be confirmed.

Workshop capacity:
APC workshops have a capacity of 30 students. Students will be assigned a place on a first come, first served basis. Workshops will be adapted to suit the needs and abilities of the participants.

For more information click here, here and here.

Expressions of interest can be emailed to: annestout@albertparkcollege.vic.edu.au
The second anniversary of the unveiling of the Lemnos Gallipoli memorial was celebrated on the 13th August. As a monument on Albert Park College grounds, we attended this event and laid a wreath in remembrance.

Celebrating the role that Lemnos played in the ANZAC story is particularly relevant to Albert Park College and its surrounding suburbs, as many soldiers and nurses trained in the Navy Drill Hall (now 40 Bay Street campus) and departed for Lemnos and then to Gallipoli from Port Melbourne. Many of these soldiers grew up in our area, including 23 people who lived on Barrett Street, around the corner from APC. This memorial is also of great importance to Australians with Lemnos heritage, as it underlines the important role this Greek island played as a medical base in the Dardanelles campaign.

Above all, it serves as a powerful reminder of the First World War and the tremendous loss of life it involved. A great number of those killed at Gallipoli were teenagers, the same age as many APC students. It is especially important that our students today remember the horrific events of that war as they become active leaders in our society.

-Ava Thornley and Campbell Rider
School Captains
Philosothon

On Wednesday August 24th a group of philosophy students participated in their first Victorian Philosothon! Along with Mr Hedstrom, the students headed into the city for an evening of debate, discussion and ‘thinking out loud’ with students from across the state.

Despite fielding a modest team, the APC students packed an almighty punch! They did APC proud against a range of schools discussing whether you need language to have thoughts, whether there are any absolute moral values, what a feeling is, and whether we can really be certain of anything at all. Students were judged by a host of professors from Melbourne University regarding their ability to facilitate a respectful and academically rigorous group inquiry into their topic. Shown above is Year 10 student Tom Spillane discussing the relationship between thought and language with Professor Laurance Splitter.

It was a terrific night and lots of fun for those involved. Students interested in participating in future events should contact Mr. Hedstrom at the College.

VICT Excursion

On Monday 28th of August, four Year 11 Ambassadors visited the Victorian International Container Terminal (VICT) in Port Melbourne for a site tour of their facilities before the VICT becomes operational at the end of the year.

Charlie, Sienna, Ellen and Alexandra joined CEO Anders Dommestrup along with Mr Cook (Foundation Principal), Mr Sheppard (School Council President) and Mr Patrick (Student Leadership Coordinator) on a tour of the facility to learn about the new efficient operations systems at the VICT and to strengthen the relationship between APC and the VICT.

These four Year 11 Ambassadors sat on the panel of assessors for the VICT’s community grants program earlier in the year to help the VICT allocate funding for community-based projects.
APC Families

APC Families Coffee Mornings
Come along for a cuppa and a chat, have a coffee/tea/muffin with fellow APC parents & carers, and enjoy catching up and meeting new people.

School cafe, last Friday of every month, 8.30-9.30am

The Great Victorian Bike Ride
For bike riders of all skill levels, 3/5/9 day ride as part of the APC group in the Great Victorian Bike Ride, Halls Gap and the Great Ocean Road Victoria
Contact: andrewrobinson@albertparkcollege.vic.edu.au

Sat 26 November – Sun 4 December 2016

Lunchtime Bike Engraving Sessions with Vic Police
Coming again to APC in Term 4. Please report bike theft! It enables recovered stolen property to be returned to rightful owners, and helps VIC Police understand high target areas and allocate resources to support community crime prevention. Some of our APC kids did get the thumbs up from the Crime Prevention Team on their locks. Check out this article on best locks https://gearjunkie.com/best-bike-locks

Dates to be advised, possibly the first week of Term 4.

APC Families Weekend Away
The APC families weekend in November is held for students and parents to get away and relax by the beach whilst catching up with friends. It is also a wonderful way to meet and welcome new families, especially those new to Year 7.

Our destination is the Anglesea Beachfront Family Caravan Park (ph 1800 040 455 or 52 631 583) where there is plenty to do regardless of the weather. A variety of camp sites and cabins are available. Dinner on Friday night will be at the Anglesea Hotel. A relaxed bring-a-plate bbq dinner is held at the big campsite kitchen on Saturday night, and brunch at the Anglesea Lifesaving club on Sunday.

Let’s enjoy Anglesea, soak up some sun, swim, surf and socialise. Please mention you are with APC when you book and also email Teenalboz@gmail.com so we can confirm numbers.

Fri 25 – Sun 27 November 2016

End of Year APC Families Gathering
We are currently planning to hold our Term 4 Social Evening.

Stay tuned for more details!
Victorian State School Spectacular

Year 7 student Hannah Cresp was selected as an Ensemble Dancer for the Victorian State School Spectacular. The event was held at Hisense Arena on Saturday 10th September, with two shows at 1:00pm and 6:30pm.

Congratulations Hannah!

On Wednesday 21st September APC Music teacher Daniel Zisin celebrates the launch of his debut album at the magnificent Toff in Town. An impressive array of guests including Lisa Crawley, Ciecmate and Duvz will join Daniel in what promises to be a spectacular night of music you will not forget.

Visit Daniel's website to hear his music here. danielzisin.com

Wednesday 21st of September
The Toff in Town
252 Swanston Street, Melbourne.
Doors at 8:00pm
$15 on the door,
$30 with an album.

Congratulations Cat Warren!

Congratulations to Year 9 student Cat Warren, who in May this year won the national award for cinematographers aged 15 and under.

Cat is no newcomer to film, having shot her first film at just 11 years old, and she has previously won the ACS state award for VIC/TAS in both 2015 and 2014. Her film accolades already include five US film awards, official selection in dozens of film festivals in Australia and internationally, including three finalist films in Tropfest Australia’s junior category.

Cat’s entry into the 2016 ACS awards is a music video featuring Melbourne teenagers Paul Kaspar and Marisia Zapantis. The Robbie Williams’ track, “Angels”, was recorded by APC parent and producer, Craig Harnath, owner of St Kilda’s Hothouse Studios.

Click here to watch her entry.

Cat’s most recent short film, Unbroken, featured fellow year 9 student, Finn Ireland, and has been officially selected in three US film festivals.

We know we’ll be hearing a lot more about Cat as her filmmaking career progresses!
2016 ART SHOW NOW HELD AT OUR NEW BAY STREET CAMPUS

WE NEED YOUR HELP!

The sixth annual Art Show is almost upon us and we are seeking help from parents in a range of areas.

Calling all bakers!

Our APC Art Show cake stall will be held on Sat 15 & Sun 16 October. Last year we raised over $1000 to support the College so this year we are aiming even higher!

We are looking for whole cakes, plates of slices, muffins, cup cakes and biscuits to sell as part of the event; honey joys and chocolate crackles are always a favourite!

Due to health requirements, all baked goods must be accompanied by a list of ingredients, a suggested use by date and the baker’s initials on the label.

For enquiries, please call Sabine on 0403 786 798.

Happy baking!

Please bring your contribution to the Bay Street Campus Foyer on Friday Oct 14 or directly to the cake stall at the Bay Street Campus on Saturday Oct 15 after 9.30am.

It’s a Corker!

Our weekend wine raffle was a great success last year so let’s do even better in 2016! Bottles of wine can be dropped at Danks St Reception from Oct 3rd.

Want to help over the weekend?

We always welcome volunteers! Click here to sign up for our parent roster.
