6pm - Drama Space Danks St

Saturday 8th September

IB Visual Arts Exhibition 12-2pm
Gatehouse - Princes Pier

8th - 24th September

Year 9 World Challenge Expeditions

10th - 17th September

Year 9 Da Vinci Expeditions

Wednesday 12th September

Strings Evening - Southport Uniting
Church - 5pm

15th - 22nd September

New Caledonia Trip

17th - 21st September

Year 12 Practice Exams

Friday 21st September

Last day of Term 3

Monday 8th October

First day of Term 4

PRINCIPAL'S SAY

Celebrating the performing arts...

"I believe that creativity will be the currency of the 21st century." - Joseph M Calahan

The performing arts play such an important role in offering our students transformative experiences. It is an art form that encourages the exploration of ideas, creativity and enriches our view of the world.

This year's school production, Parable, exemplified all that is great about the performing arts. An original work, written and largely performed by our year 10 students, it explored the moral dilemma of who is ultimately responsible for the state of our world today.

Highly intelligent and ethical theatre, it challenged our worldview and encouraged all of us in the audience to think deeply about what we can do to make the world a better place. This piece spoke to our passion at Albert Park College for creating original and thought-provoking work.

For the first time we took the work out into the community with the production taking place in the Gasworks Arts Park theatre. This has been our commitment across our arts program, making our work accessible to the public and partnering with community organisations.

On the 8th of August we hosted a visiting performing arts troupe from China. Over 100 performers jammed into the Bay Street campus for the event. We felt very honored to host them as they only performed in two venues in Australia, the Sydney Opera House and Albert Park College.

We were not disappointed as what followed was an extraordinary spectacle. Two choirs, the Liyun Peking opera club and a full orchestra took us on what can only be termed a cultural odyssey.

One highlight was the performance of a young boy who displayed complete mastery of a traditional Chinese flute, a haunting and beautiful performance.

Another came from the China Elderly Art Troupe. All the performers are over 60 and they showcased traditional hand stitched silk dresses as they performed a melodic and graceful dance.

Following the performance the audience and the performers joined together, exchanging gifts and building friendships through their mutual love and appreciation of the performing arts.

We also held a successful strings evening at the Southport Uniting church. We are very fortunate to be able to perform in this historic bluestone church. It has the perfect atmosphere for the brass, woodwind and percussion performances featured at this event.

The fourth highlight was the VCE dance showcase evening. This event featured solo pieces choreographed and performed by our most senior dance students. Once again, we were so impressed by the creative and original work from our students. Particularly memorable was the piece titled “mosquito” which was a vivid reminder of the power

of this creature to disturb our peace.

The final performing arts highlight this month has been our participation in a performance piece at Theatre Works St Kilda. City of Lost Souls explores ghost stories of St Kilda and beyond.

This is a project supported by the City of Port Phillip Cultural Fund and we are proud to be part of this creative and original work. It is a performance featuring original songs, dialogue and animation.

Our choir have worked so hard to be part of this event and their performance was as moving and haunting as the content of the performance piece demanded.

This month’s performing arts calendar is a testament to the creativity and talent of our students. I want to congratulate them for their commitment and courage in exploring the art of what is possible.

We need people who think with the creative side of their brain. It enables all of us to see life from a different perspective.

Steve Cook
Foundation Principal

Parable - Year 10 Drama Production

APC's annual production for 2018 was a collaboration between Artist in Residence Christopher Beckey and Albert Park College students, performed at Gasworks Theatre. Entitled Parable, the play explores the clash of ideologies that exist in our local, national and global communities. The concept was devised by the Year 10 Drama class using Jean Genet's *The Maids* as stimulus material. Upon entering the rehearsal space students were given the opportunity to improvise new scenarios exploring the changing relationships of the characters. Over a period of 8 weeks, new scenes were developed and rehearsed until a full play emerged.

Parable is set in an apocalyptic world where the future is dependent on the actions of 5 members of humanity and archetypes representing the 11 best and worst aspects of humanity. With the last hope of humanity stolen, the characters must force the guilty party to surrender and return what was stolen.

Albert Park College presented two shows on Friday 10th of August with over two hundred audience

members attending the matinee and evening performance. Earlier in the day, rehearsals took place enabling fantastic lighting to be plotted as well as the cast to get used to the space. On behalf of all involved, I would like to say another huge thank you to Gasworks Theatre for allowing us to use the amazing stage and backstage areas! Both performances were a huge success and a lot of fun to put on!

I would like to extend another message of appreciation to Christopher Beckey for all the effort he put into the production and thank him for opening many of our eyes to a different style of theatre. Of course, this would not have been possible without the incredible support and talent of Ms Alers, Ms Carracher, Ms Barton, Ms Lee and Ms Pritchard. Thank you once again for all the effort you put in!

Written by Melisand Box

IB Visual Art Show

We are pleased to announce that our first group of International Baccalaureate Visual Arts students are presenting an exhibition of their artworks produced as part of the Diploma Program at our Gatehouse Campus on Saturday the 8th of September 12 - 2pm.

This exhibition is a celebration of two years of hard work by our students who have developed innovative techniques and concepts with an awareness of their place in our global community.

Over the course of the program each student developed their own framework for producing art works in their chosen art forms and have spent many hours researching influences from diverse cultures and developing and refining their own techniques to execute works for the show.

Apart from being a celebration of achievement, this event is also a major assessment task for our students which equates to 40% of their score for Visual Arts.

Each student has produced between 4 and 11 artworks for this exhibition, which has made our first exhibition very diverse and interesting. We warmly invite the Albert Park College community to attend this opening to help celebrate the successes of our first International Baccalaureate Visual Arts students.

Lead Create Inspire

The Melbourne Camera Club

The excursion went for two days. On the first day we were introduced to the basics of film photography, taught how to properly load film into our cameras and adjust the settings to capture the best possible shot. We then walked around South Melbourne, each with a film camera of our own taking photos with a limit of 18 images. We returned back to the dark room and developed our negatives, allowing us to view the pictures we took, although not everyone's images worked out. We chose two pictures each that we wanted to enlarge into full photos on the second day.

On the 7th and 8th of August, a small group of Year 10 and Year 12 students took part in an excursion to The Melbourne Camera Club to learn about analogue photography methods. We were lucky enough to be able to shoot film, develop film, and then enlarge prints of our own in the darkroom. It was an incredible experience as we were able to not only learn about this medium but the members there showed us their collection of early made cameras, such as spy cameras designed for the Second World War.

Being in the dark room was one of the most stressful experiences as any bit of light exposed to the paper would ruin the whole thing - there were a few incidents where someone almost got out their phone... Each student who attended also got their portrait taken on a very old medium format film camera and a lovely group shot. Overall it was an amazing experience that each student valued highly!

Thank you to Ms Barton and The Melbourne Camera Club for the awesome excursion.

STEM: F1 in Schools Sponsorship Evening

On Thursday 23rd August the four Year 8 F1 in Schools teams participated in a Sponsorship Presentation Evening where they got to thank their sponsors for their support and collaboration in preparing for the State Finals of this competition. As well as representatives from local businesses and Rotary Club, guests included: Martin Foley MP representing Albert Park and also representatives from Driven Women Magazine and One Girl.

A write up in Driven Women Magazine can be found at this link. Also, the teams received a strong media representation being acknowledged on Twitter and numerous social media pages.

The teams are now preparing their final designs and collating their Engineering and Team Management Portfolios in preparation for the State Finals of the competition held 13th -15th November at Bosch Headquarters in Clayton.

Voxpop - Pop Question

If you had to be played by an actor who would it be?

Sol Rumble - Scarlett Johansson
Natalia Katsorhis - Kiera Knightley

Mosi Smakman - Asa Butterfield
Ms Alisha Kirtley - Anne Hathaway

Creativity, Activity and Service

As a part of the core curriculum, IB students participated in a range of activities that explored Creativity, Activity and Service (CAS). These activities are completed in students' own time and ensures that they have a balance between school work and extracurricular activities. This year sees the completion of the Year 12 IB classes CAS portfolios. Students participated in a range of activities that took them out of their comfort zone. They also completed a major CAS project where they initiated and facilitated a major activity that they investigated, planned and demonstrated. The projects were designed to give back to the wider community. The class have just completed their final CAS interviews, communicating what they have learnt during the process.

Olivia Lawrence

"The part of CAS that I most enjoyed was my CAS project. Watching something go from a design to a tangible product was really cool, and giving back to Headspace was really rewarding. I learnt that balancing school work with extracurricular activities is really important to create a fulfilling life and CAS

brought me to this conclusion".

Gabe Orloff

"My favorite aspect of CAS was applying the requirements of the course to my own interests. I was able to provide service for others while learning about bike mechanics and furthering my interest in that subject matter. Being able to pursue my own interests made the experiences I was undertaking enjoyable and made me look forward to furthering my CAS portfolio".

Hari Vidyalakshmi

"I had always wanted to play the guitar, and CAS gave me the opportunity to learn it. I had enjoyed the whole process of learning it, and it was my favourite part".

Llywyllyn Mcdonald

"I found CAS actually provided some productive and much needed downtime from the rest of the course. Not only that, but some of the new experiences I had, especially those that took me out of my comfort

Creativity, Activity and Service

zone, like performing in a wedding band and taking part in a 2 day hike, will certainly stay with me”.

Milo Burgner

“My favourite CAS experience was working for a couple of months at a local Red Cross. I felt I gained a lot of experience and skills working within the service industry, like having to talk to customers, and using a till. Additionally, I felt like I was making a positive impact on the world through working there”.

San Clifford

“I personally liked the experience of taking part in clean up Australia day in my local area the best because it was really rewarding to get to see how in the space of a few days, your local area gets transformed from a place that is littered with rubbish, to a place that was free of plastic and other pieces of rubbish. Moving forward, I think I will continue to participate in cleaning my local community”.

Steph Li

“My favourite part of CAS was learning more about my abilities and strengths, as well as stepping out of my comfort zone to participate in activities I wouldn’t normally do in the past such as dance, gaining more confidence in myself and the things that I can achieve”.

Building Leadership for Change

This is the second year that Albert Park College has been asked to host teachers from Saudi Arabia as part of a joint initiative with the Saudi Arabian Ministry of Education and the Melbourne Graduate School of Education at the University of Melbourne. The visiting teachers with us for May and June are: Hulayla Abdullah Al Sulayyim, Huda Altalhy and Nimah Salem Altawi. They have been working with teachers and our principal team to build their knowledge of Australian school systems and approaches to education. They have also been sharing information about the Saudi education system and culture with staff and students. Staff have enjoyed Saudi morning tea thanks to our visitors and Huda ran a Saudi cooking class with our Food students. Delicious!

Year 9 Mind and Body

Over the last two weeks, students from year 9 Mind and Body have been visited by some furry friends! As part of the Mind and Body program this term, year 9 students have been developing their understanding of positive psychology and have been creating their own practices to enhance their health, happiness and wellbeing. In addition, students got the opportunity to meet some Animal-Assisted Therapists and their adorable dogs! This was a great opportunity for students to engage in some practical activities with the dogs and witness how they are used as a form of therapy to improve an individual's emotional or cognitive functioning and overall wellbeing

Sports Update

The Year 8 Boys Badminton team went on to compete in the Southern Metropolitan regional finals on the 3rd of August. Overall, the boys competed over three days, and won against eight other teams to make it into the final round. Unfortunately, in the finals they were defeated, and for the second year running came runner up at the Southern Metropolitan Regional Finals. Please congratulate the following boys on their effort- Karlin Nguyen, Benjamin Davies, Daniel Dessau, Wilkie Dick and Louis Shepard. It is quite an achievement to perform in any sport at this level, and to do it so successfully with such grace and sense of pride.

The APC Basketball Academy commenced sessions in the second week of Term 1, 2018 as it has every year since 2011. The opening days of trials saw up to 140 students take the court eagerly meeting new teammates, coaches and friends.

Since Week 2, the Academy has been in full swing with all students spending a minimum of 3 hours on the court working on skills and game-play concepts. On top of the heavy training schedule all students have participated in friendly tournaments with Berwick Secondary, Elwood Secondary and Doncaster Secondary and will do so again in Term 4.

In Term 3 selected students have taken part in Inter-school tournaments and exclusive Basketball Victoria Champion's Cup tournaments. A big congratulation's goes out to our U15 Junior Girls who are through to the Elite 8 stage (top 8 in Victoria). Following on from that all four of our Year 7, 8 boys and girls teams have made it through to the regional finals stage and will compete for a position in the state finals later this term.

Good luck to all players competing in upcoming tournaments and we look forward to all Academy members finishing off a strong Term 3.

Sports Update

Year 7 Girls Futsal team won Beachside final

“Well done to the Year 7 girls Futsal team who won the Beachside Schools Tournament on Wednesday! The girls played exceptionally well. The girls were excellent representatives of APC. Congratulations to all players!” - Ms Van Summeren

Excellent effort by the Year 8 Boys Futsal team

These athletes came runner up in the Beachside Final. The boys were fantastic sports and should be really proud of their efforts.

Congratulations to the Year 7 Boys and Girls Basketball teams

The teams have won the Beachside events and are going through to the Southern Metropolitan Finals in October. Good luck! “Well done to the year 7 Girls A team who won the Beachside Schools Tournament yesterday! Both

A and B teams played exceptionally well on the day and represented APC with absolute class! Congratulations girls!” - Mr Sheers.

A big congratulations to the Year 8 Boys and Girls Basketball teams

These teams won the Beachside event and are going through to the Southern Metropolitan Finals in October. Good luck!

Well done to the Intermediate Boys Futsal team

The boys only just missed out on the Final. A huge

thank you to APC parent helper, Paul Stewart, who coached the boys on the day. “The boys played brilliantly and in a great spirit. Unfortunately they just got pipped by a very good Melbourne High team in the final after winning their first 3 games, including a 14 to nil. It was a pleasure to facilitate them playing” - Paul Stewart

Well done to the Intermediate Boys Table Tennis team

They have put in a great effort against some tough teams at the Interschool event earlier this month. Thank you to APC parent helper, David Burdett, for coaching and supporting the team. “Everyone behaved well and showed good sportsmanship. The kids won more than they lost, and finished third out of six, being beaten by Melbourne High (who were dominant all day) and Yavneh.” - David Burdett

Good luck to the Senior Boys Basketball team

This team have won the Beachside event and are going through to the Southern Metropolitan Final next Thursday 6th Sept.

Well done to the Year 7/8 Girls Basketball Champions Cup team

They had won the first round of games before being defeated in the second round. It was a great effort and they represented APC brilliantly.

House Chess and Future House Events

On Friday in week 5, 30 students attended the House Chess competition at Danks St. We had students participate across all year levels at the main campus who came along to this event to win points for their house. Winton came out on top as the winners of this competition with 101 points. Special mentions are needed for Sudarshan Lamichhane (Winton) who won one of his games in 4 moves and to Harriette Christie (Winton) and Thomas Lee (Flannery) who both won two games in a row.

On Monday in week 6 the completion continued at Bay St. 26 students attended and again Winton came out of this competition victorious with a further 61 points. Special mentions are needed for Ashley Leddy (Winton) and Thomas Dolan (Freeman) who won two games each for their house. Thank you also to the House Captains for setting up and leading these events.

House	Total points	Term 1				Term 2						Term 3		
		House Swimming	House Battle of the Bands	House Football	House Cross Country 9 - 12	House Cross Country 7 - 8	House Athletics	Mother's Day Classic	House Banner Making	House Book Week (costumes and trivia)	House Basketball 7 - 9	House Basketball 10 - 12	House Chess (Danks St)	House Chess (Bay St)
Freeman	1985	780	26	30	45	48	890	4	10	8	47	50	5	42
Winton	2287	920	14	30	65	46	925	5	8	77	9	26	101	61
Flannery	2201	1100	18	10	10	34	923	4	8	16	6	16	49	7

Events to look forward to:

House Volleyball in week 8 in the gym at lunchtime (Monday Yr 9s, Tuesday Yr 7/8s, Thursday Yr 10-12s)
House Soccer at The Pitts (more details to come on Compass during the end of Term 3)

House Iron Chef in week 4 Term 4 (details and application form will be found on Compass)
Any queries or questions about these events please come and talk to the House Captains or Miss Jessop :)

Year 9 Community Engagement

As part of the Y9s Community Engagement program, this term, students stepped out of the classroom and immersed themselves actively by supporting and working with some of our local community groups. Students had the opportunity to engage with a diverse range of volunteers and organisations to support our local community:

Beach Patrol and EcoCentre

Students worked with volunteers from Beach Patrol and EcoCentre to help combat beach and street pollution, as well as fighting War on Waste in our troubled beach habitats. There is a lot we can do to fight War on Waste, and visiting <http://www.biogone.com.au/> is a terrific way to displace non-biodegradable plastic items you currently have at home.

Father Bob Maguire Foundation

This was a great way for the students to learn how Father Bob's facilitate a caring community, whilst the students helped prepare fruits and vegetables for the evening community meals that are made available to the homelessness and disadvantage.

St Kilda Mum's

Those students that attended St Kilda Mum's, were able to understand how recycled nursery equipment is a great way to help families who are facing a variety of challenges, whilst supporting the environment.

The Big Issue

Students participated in an inner city workshop, led by the team at Big Issue, as well as meet individuals that have experienced homelessness.

Library Corner

TALKING BOOKS

with APC student Adam, year 10

If you could be any book character, who would you be? Harry Potter because he has the ability to fly and owns an invisibility cloak.

What is the most recent book that you read?

Joyful Strains: Making Australia Home (edited by Kent MacCarter and Ali Lemer). Although I only found a minimal part of it interesting, some of the refugees had really interesting stories.

Are there any books that you recommend?

The Maze Runner series by James Dashner. They're a really good science-fiction, non-naturalism series. I read the series for the first time a few years ago and have re-read the books since then.

LIBRARY NEWS:

Spanning from 18-24 of August, the Children's Book Council of Australia's book week saw various Australian novels take home prizes. The APC library now has all six shortlisted books for the Older Readers (ages 13-18) category in the library, including the winning book *Take Three Girls* by Cath Crowley, Simone Howell and Fiona Wood.

RECENT ARRIVALS:

The Biggest Estate on Earth by Bill Gammage

This book was recommended by Aboriginal playwright and academic Richard Frankland at the APC staff conference. It describes the sophisticated Aboriginal land management systems that were in play prior to European influence, challenging colonial prejudices that criticised Australia as barren and unruly before settlement.

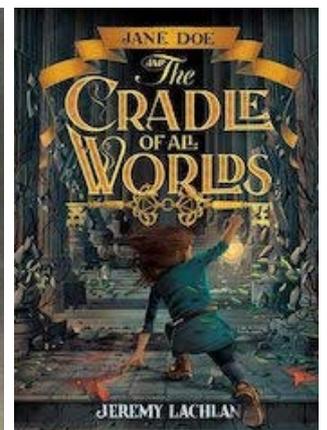

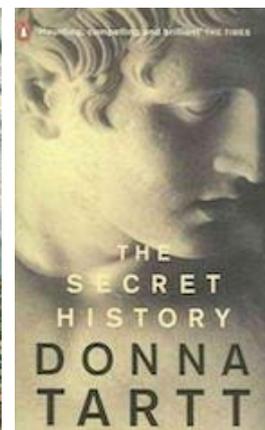

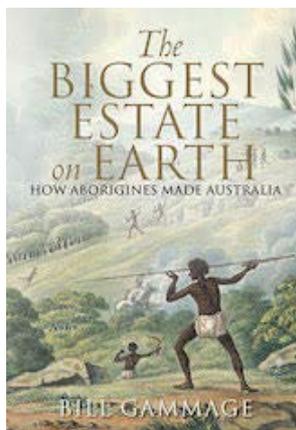

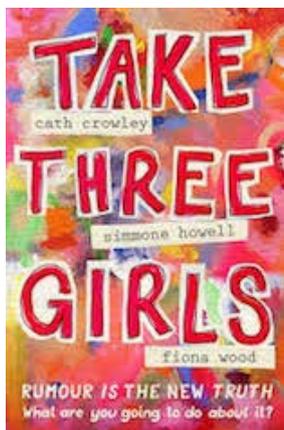

Jane Doe and *The Cradle of All Worlds* by Jeremy Lachlan

Published in August 2018, it is the first instalment in a four-book series that is set to be a stellar journey. It is a dark and magical fantasy that has been described as a mix between the TV series *Stranger Things* and Phillip Pullman's *His Dark Materials* series. It is suitable for early to middle year students.

RECOMMENDED:

The Secret History by Donna Tartt

For senior students, this 1992 bestseller has attracted a dedicated cult following. The story follows a tightknit circle of classmates who study Ancient Greek and at a liberal arts college in America. However, the book is unlike your traditional snapshot of college life; and is instead part psychological thriller, part philosophical meditation, and part a reflection on growing up. With its murders and bacchanalian rituals, it is at the very least a highly memorable read.

Careers Bulletin

In the last week of Term 2 I was fortunate enough to participate in a work experience placement in the Biology department at the University of Melbourne. I was very happy to have gained this placement as this is a field that is very competitive and is hard to get placements in. Although I initially wanted to do my work experience in a hospital, I was finding it very difficult to find placements which is why I started looking for placements with a similar focus but more in the research side of things. In this placement I had heaps of fun, getting to work closely with a PhD student extracting fly DNA, putting it on a gel and even using restriction enzymes to cut the DNA to get different strands of DNA. Although initially I would

not even have thought of such an experience, I found it great to work in the lab daily and learnt so much which I would never have learnt otherwise.

Weeks before I had also applied for the Royal Melbourne Hospital work experience in the Neurosurgery department as I already had secured a placement and I really had nothing to lose. Suddenly, when I was already on my placement at the University, I received an email confirming that I had gotten a placement at the hospital. This occurring in the first week of the holidays. During this week I got to interact with patients, watched 5 neurosurgeries and got to experience what it is like to work in a large hospital. I absolutely loved every minute of this experience.

Although I didn't get all the placements I applied for initially, I kept looking and applying which I would highly encourage anyone else to do. If you don't get your first choice, just keep looking and don't be afraid to get knocked back. Although it was very tiring doing 2 weeks of work experience I would 100% recommend others to do the same to really immerse yourself in a possible career and something you will actually enjoy.

Organic Waste

Albert Park College's Environment Club has the ambitious aim of transforming our school into a carbon positive one. We currently generate an average of 4 tonnes of landfill waste per month, taking into account our summer break and term holidays. None of this is recycled and only a small amount is diverted from landfill.

This is in part due to China's changes to waste import contamination levels. With these new strict standards a single black bin liner will contaminate an entire 9 tonne truck of otherwise clean, recyclable waste. The lack of recycling is also down to Australia's current inability to recycle. Finally our ability to control the waste that enters our school from 1,300 separate sources is a very limited.

Achieving a level of 0.5% contamination or less at any school is an almost impossible feat, but we're up for the challenge. Behind the scenes, we've been making changes to our waste management systems to work towards our goal of zero waste.

Last term, we introduced worm farms to handle the food scraps from the Danks St Food Technology rooms. They're thriving and generating castings which will fertilise our Herb Garden. As the worms continue to grow, we will colonise more bins to service The Whole Nine Yards Cafe at our Environmental Hub at Bay St and then Pickles. These will continue to be an educational resource.

But they don't deal with all of our waste. From Term 4, we will be introducing new paper recycling bins into all staff offices. Organic waste will be captured by a 240Lt bin in the courtyard of Danks St. Throughout Term 4, smaller organics bins will be situated in the classrooms.

Look out for more information in upcoming assemblies and around each campus about how to use these bins responsibly and effectively. Together, we can reduce and recycle our waste and prevent it from ending permanently in landfill.

Eloisa Moses-McMahon, Environmental Leader
with Mr. Steven Stanecki and Mr. Guy Alexander

Let's Compost!

Don't put in
Plastic Wrap
Foil
Bottles
Drink Cartons
Other Plastics
Printer Paper

Green bins take all food waste

BioPak containers & cutlery, paper bags and wraps also go in!

Calling ALL ARTISTS!

Entries close on the 17th of September

We accept 70% professional/amateur work with the balance of 30% for student work for this fabulous fundraiser for our school. Our online entry system is now open!

Silent Auction and Raffle Items

The Annual Art Show is fast approaching and we are seeking donations/items from the school community for the silent auction and raffles. Please contact Ruth at ruthkrawat@gmail.com or on 0419 390 962 if you can donate any items such as holiday homes, homewares, vouchers, art works, sport equipment, services etc. All items will be greatly appreciated. She is also looking for a partner in crime, so if you have any spare time to help Ruth, please give her a call.

How can you help?

As a school community member, your assistance and support is vital. Your help would be appreciated with the following:

- Send out an invitation to any artists you know encouraging them to submit works
- Sponsor a cash prize
- Sponsor printing costs
- Sponsor our musicians
- Sponsor advertising costs
- Donate to our live auction
- Bake a Cake and deliver on the Sat 20 and Sun 21
- Donate to our silent auction
- Offer your support by putting your name on our roster to help at the event.
- 1-2 hour shifts available.

Pick My Project

Dear Albert Park community,

We invite you to support our students in helping promote youth engagement in our local area by registering with [Pick My Project](#).

Once you've registered, you'll have three votes to allocate to [project ideas](#) you'd like to see funded in your local community. You'll be able to choose from project ideas located within 5km of your residential address.

Please don't forget to vote for our local projects, "[From Port to Plate](#)" and "[Youth Engagement Facilitator](#)" so that our students can have the opportunity to make their projects a reality and help the youth within our wider community.

Please share with friends and family who may be eligible, every vote counts!

Many thanks,

George Atrache
